-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 12 June 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Response to Amendment

Priority

1. PTO records indicate their priority data differs with that of Applicants. **This issue was previously ignored**; Please re-check the information submitted regarding provisional applications and comment on or correct in response. A response is required.

Specification

The amendments in response to the Specification Objections of the Previous Office Action are acknowledged and appreciated, and the Examiner withdraws the objections.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claim 38 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. There does not appear to be support in the original filing for quenching to lower the first temperatures to the second temperature. No citations were supplied and the Examiner could not find support.

Art Unit: 1762

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 33,36,38,40 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- Claim 33: last line “polymer” lacks antecedent basis (should be “polymeric material”).
- Claim 36 is vague and indefinite because it is unclear and undefined what is meant by a temperature being “inconsistent” or “consistent” with the stability of the polymeric material.
- Claim 38 is confusing because it reads as an apparatus limitation on a method claim; it is suggested a positive recitation of a method step be used, e.g. “wherein quenching means lowers the temperature...”.
- Claim 40: lines 12, it is unclear why “a spray of catalytic material” produces polymeric material; line 13, “polymeric material” lacks antecedent basis; line 15, “polymer” lacks antecedent basis (should be “polymeric material”).

6. The prior art rejections of the previous Office Action are withdrawn, and claims 33-44 are allowable over the prior art for the reasons summarized on page 1-3 of Applicants’ Response. Claims 33,36,38,40 are rejected under 35 USC 112 above. Claims 34,35,37,39,41-44 are objected to for depending from a rejected base claim.

Art Unit: 1762

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
